

## HTML5 Game Developer

We are looking for an experienced HTML5 Game Developer to join a highly qualified team who are passionate about what they do. Using the latest technologies, you will help build a set of cross platform online and mobile games that will entertain millions of people around the world.

### Job Activities

- Build high quality, cross platform HTML5 games
- Help to maintain and evolve our game development framework
- Development and maintenance of tools to ease the creation process
- Contribute to code reviews and actively assist other team members

### Required Skill

- 5+ years experience in game or web client development, preferably using Typescript or JavaScript
- Experience with cross platform (desktop and mobile) game development
- Solid knowledge in object oriented analysis and development, design patterns and architectural concepts
- Write high quality code: performatic, easy to understand and maintainable
- Team player: help other team members as and when necessary
- Self management, fast learner, great communication skills

### Desired Skills

- Experience with Phaser, PixiJS, Unity or other game development engines
- Experience on creating development tools
- A good understanding of how server communications are made and how the art/ content pipelines work
- Undergraduate degree on Computer Science or related areas
- Knowledge of development tools like git, node, Visual Studio Code
- Understanding on how to work with Scrum and/ or other agile methodologies
- Culture of code reuse and quality embedded throughout development
- English speaker

### What do we offer

- You will be part of an autonomous, capable and very passionate team
- A very welcoming and highly collaborative work environment
- Remuneration and benefits compatible with your experience with opportunities for further development and growth within the business
